

IAHC President's Message

Dear supporter of caring science in nursing,

Placing each of your names into badge holders for you to wear at this conference was an unexpected honor and a loving privilege. This seemingly simple task is a profound reminder of how much time and effort is devoted by each of us in preparing for this event. Some names could not be placed into badge holders because visas could not be obtained, and others suffered unexpected circumstances preventing their being here. We include them in spirit, as we do 4-142 our members, both living and departed. We especi4-142y remember Delores Gaut, a founding member of IAHC, who died last year.

Your presence here adds beautifully to the springtime we have so long awaited here in Minnesota; and as the seasons change, so does the leadership of IAHC. Please join us in welcoming new board members and officers at the membership business meeting, and please take every opportunity to enjoy each other's company, the wisdom you impart, and sights and sounds of Minneapolis and Saint Paul.

Patrick J Dean RN, EDD, OSTJ

Clinical Associate Professor ad Honorem, University of Minnesota School of
Nursing International Association for Human Caring President

Welcome provided by Dr. Connie Delaney, Dean of the University of Minnesota School of Nursing

Keynote Speaker

David Freudberg, National Public Radio Host of “Humankind”

Address Title: Human Caring Meets Human Media

David Freudberg entered public radio as a high school intern in 1971 and has remained continuously in the field ever since (he never learns!). He has hosted **Humankind** for over 20 years. His reports have aired on NPR’s 4-142 Things Considered, Morning Edition and Here and Now, as well as Marketplace, now distributed by American Public Media. In addition to NPR, David’s productions have been broadcast on Public Radio International (PRI), British Broadcasting Corporation (BBC), Canadian Broadcasting Corporation (CBC) and Australian Broadcasting Corporation (ABC).

He has published extensively in The Washington Post and The Huffington Post. David served as Principal Investigator on five National Institutes of Health (NIH) projects and delivered an annual lecture at the Harvard School of Public Health for twelve years. (Description taken from <https://www.humanmedia.org/about/about-the-producer/>)

We Invite You to Join IAHC

In 1978, the National Caring Research Conference was conceived and initiated by Dr. Madeleine Leininger. The annual conference was designed to gather scholars together to share ideas, research, and theories of care and caring. The core philosophy of the association is based on the belief that caring is the essence of nursing and caring is the unique and unifying focus of the profession. The national organization began in 1987 through the generosity of 42 charter members. In 1989, with the encouragement of nurses from around the world, the conference association was changed to the International Association for Human Caring (IAHC) Inc.

The central purpose of the IAHC, Inc. is to serve as an international, scholarly forum for 4-142 nurses interested in the advancement of the knowledge of human care and caring within the discipline of nursing. In 1993, Drs. Leininger, Delores Gaut, and Malcom MacDonald produced a video outlining the history and growth of the Association. In 1994, Dr. Leininger established the Leininger Research Scholarship Fund to assist in the financial support of nurse researchers studying the phenomenon of human care and caring.

Some of the Member benefits include:

- Complimentary subscription to four issues of the *International Journal for Human Caring*.
- Participation in quarterly Circle of Caring Teleconferences related to caring scholarship and updates on the organization
- Reduced Annual Conference Registration Rate
- Reduced Watson Caring Science Institute Conference registration rates.
- One Hour conference c4-142, or on site visit with an IAHC caring scholar. Contact us for details.
