

International Association for Human Caring

Reasons to become part of our Global Caring Community

The International Association for Human Caring (IAHC) provides a welcoming place for individuals from varied cultures, backgrounds, and professional disciplines to share, explore, discover, and disseminate knowledge and experiences related to caring in healthcare and beyond for over 40 years. Caring encompasses spiritual and human consciousness that connects and transforms everything in the universe. Our goal is to experience, share, and create positive transformation through the implementation of intentional caring practices in healthcare and beyond, beginning this transformation within ourselves.

Belonging to IAHC will provide opportunities for you to:

Engage in Collegial Networking, Knowledge Development, Dissemination, and Leadership

- International Journal for Human Caring (IJHC) online subscription with direct online access to the journal. Access downloadable pdfs of individual articles published in current and past issues.
- Interact with authors and colleagues online during ongoing *IJHC Journal Club* events.
- Attend our International Association for Human Caring Annual Conference; a 40-year tradition. In 2021, we are having a digital on-demand conference:
 - Earn Continuing Education at the annual IAHC conference.
 - Receive a reduced registration rate if you are an IAHC member.
 - Present your own work in digital format at the annual conference.
 - Network with Leading Caring Scholars from around the Globe.
- Meet other members and leading, interdisciplinary caring scholars at the IAHC Annual Conference and other IAHC digital events throughout the year, no travel needed, wherever you are.
 - Develop lasting personal and professional relationships with like-minded people who believe Human Caring is of vital importance to our lives and to our planet.
 - Renew your spirit.
- Establish your Presence as a Committed Caring Professional
- Serve on IAHC Board and/or committees.
- Publish in the International Journal for Human Caring.
- Become an Interdisciplinary Leader in Caring Science
 - Build, develop, enhance and grow your knowledge of caring science.
 - Develop international leadership skills.

- Participate in local and global efforts to sustain Human Caring and transform organizational systems into care-focused systems.
- Access to recordings from the monthly journal club
- Connect with professionals on LinkedIn who specialize in caring science. All member within the LinkedIn group are by request only as they have voiced interest in contributing to caring science.

We invite you to Join Us.

Your presence and contributions are important and we value your contribution
