

Presentation Formats

Presentation formats provide an opportunity to address caring-based research, practice, education and/or aesthetic topics. All 2021 presentations will be virtual. Topics reflecting the conference theme are preferred. Research studies submitted for presentation must be complete at the time of abstract submission with evidence of IRB approval/exemption. Posters may reflect research in progress. IRB approval is not expressly required for program evaluation or quality improvement studies. Authors may submit multiple abstracts.

Podium Presentations consist of a single paper. Presentation time is 30 minutes.

Symposium Presentations consist of three (3) related papers. The abstract should include a single symposium title and address the shared topic. Titles of individual papers and authors will also be submitted. The symposium will be reviewed as a whole. Presentation time is 1 ½ hours.

Poster Presentations reflect a single topic. Research in progress may be submitted with evidence of IRB approval.

PLEASE NOTE: IRB approval is required for all human subject research abstracts and IRB approval and institution name must be included in the abstract text to avoid automatic disqualification.
